

Overall, I am extremely grateful I had the opportunity to complete some of the 19 actions for my project. Not only was I able to raise awareness about important issues of injustice in the Global South, but I was also able to educate myself on these problems. Prior to this project, I was not aware of the effect this pandemic had on third world countries. The 19 actions allowed me to expand my knowledge on the issues in these countries, and realize the many ways one can help make a difference. I was able to spread awareness about these problems on my social media, in my presentation to the class, and I was inspired to donate to Canadian Jesuits International to aid these causes. I believe this project has helped me become a more educated and compassionate individual overall, and encourage everyone to visit www.canadianjesuitsinternational.ca to educate themselves on the various injustices in today's society and find ways they can help.
